### NEURALGIA. If a person has neuralgia

in their system this is the seaan ailment that may spring from a variety of sources. Anamia or any depressed state of the bodily functions are frequent causes. The ex-haustion resulting from rheu-matism also makes it easy for neuralgia to get a foothold.

Any exposure to cold or dampness quickly causes an attack of the painful ailment and in some cases it will hang on almost continually during

the winter months.

The medical world has for years recognized cod lives off as being of great value in fortifying the body against neuralgia and against all con-ditions of bodily depression.

It is a powerful agent for good in giving new life to the worn out nerve centers and building up the weakened tissues which are responsible for the ailment.

# Take No Chances

These days. Don't let ready-made clothing for little money attract you; there just the kind that makes a man, after he has worn them, think if he wants good clothes he'll to go to the tailor's the next time and pay him his price for them.

There's a heap of difference in ready-to-worr clothes depends on the store's standard for quality-you know what Quick & Robertson's is don't you? If you don't we want to as sure you there's none higher and there is no reason why you shouldn't get your clothes ready-made-you'll get better clother for your money if you go to the right place for them-just as good and as correct styles and as perfect a fit as any tailor can give you.

Our line of suits and overcoats offers as large and as varied an assortment as any man would want of fabrics that have always been up to last season, exclusive tailors fabrics and they are garments you'll not find elesewhere-why, do you ask? well, they are from W. R. Johnston & Co., who sell only Quick & Robertron in Belleville.

NATHAN JONES.

Hail, New Year! You are a little fellow but you will grow to it. It may look like a big job to tackie, but once you get the hang of things you won't be worried. It as at in beginning right. Don't go to shaking up the earth with earthquakes or voluncoes. They work beautifully but keep a night. The old year hat there or four voluncoes so hand for sale cheep been it quit bestiene.

Epidemics are not wanted—they may carry off judges lawyers or jurors instead of the prisoners.

Go slow on two-headed jugs, six-legged calves; four-horned cows and armless or besinless men. The country has a large stock of freaks on hand at present which with economy will last the year.

Keep your eye on our butiness. Watch it grow as the people find out what splendid values we will give them. Just spin us along the road of prosperity and when you die we'll shed tears of gratitude.

Hall, New Year! You are a little fallow but you will grow to it. It may look like a big job to tackie, but once you get the hang of things you won't be worted. It as at line beginning right. Don't go to shaking up the sarth with carthquakes or volcanous. They work beautility but keep us all swake nights. The old year had three or four wolcangeous on hand for each chap when it quit besiness.

Epidemics are not wanted—they may carry off judges, lawyers or jurors instead of the prisoners.

Go slow on two-headed jugs, air-legged calves, four-horned, cows and armiess or brainless men. The country has a large stock of freaks on hand at present which with economy will last the year.

Keep your eye on our business. Watch it grow as the people find out what aplendid values we will give them. Just spin us along the road of prosperity and when you die we'll shed tears of grantitude.

A MIGHTY SALE

Men's Suits 20 per cent. off.

Men's Overcoats

That's the whole story in a nut-shell, and it's true, not a word of exaggeration in the statement—the values are correct, the goods are here for your seeing. Evidence is better than talk. The policy of the Globe Clothiers is not to carry over any of the present season's stock for next season's selling. That's the why of this sale. Every garment is in parfect order and in the latest style. Deduct 20 per cent, from the price and that will be the price during this sale. This sale commences to-day-it's a money-saver. If you ever expect to wear any more clothes you can't afford to stay away. Take your pick while the picking is good.

PER CENT. REDUCTION

### Men's Suits 20 per cent, off.

Men's Overcoats 20 per cent. off.

That's the whole story in a nut-shell, and it's true, not a word of exaggeration in the statement-the values are correct, the goods are here for your seeing. Evidence is better than talk. The policy of the Globe Clothiers is not to carry over any of the present season's stock for next season's selling. That's the why of this sale. Every garment is in perfect order and in the latest style. Deduct 20 per cent, from the price and that will be the price during this sale. This sale commences to-day—it's a money-saver. If you ever expect to wear any more clothes you can't afford to stay away. Take your pick while the picking is good.

These days. Don't let Ready-made clothing for little money attract you; there just the kind that makes a man, after he has worn them, think if he wants good clothes he'll to the tailor's the next time and pay him his price for them.

There's a heap of difference in ready-to-wear clothes-all depends on the store's standard for quality-you know what Quick & Robertson's is den't you? If you don't we want to as sure you there's none higher and there is no reason why you shouldn't get your clothes ready-made-you'll get better clothes for your money if you go to the right place for them-just as good and as correct styles and as perfect a fit as any tailor can give you,

Our line of suits and overcoats offers as large and as varied an assortment as any man would want of fab ics that have always been up to last season, exclusive tailors fabrics and they are garments you'll not find elesewhere-why, do you ask? well, they are from W. ## That Third Year

stage in a child's life is reached about the third year. It has begun to walk then and there are greater demands on its bones, muscles and tissues. A great deal depends upon proper nourish-ment right at this time. The utmost care is necessary in the matter of feeding, particularly if the child has been brought up on the bottle.

The majority of children with rickets either are or were bottle-fed, hence their food should be reinforced by something to make them less this distressing disliable to ease. Years of experience prove that Scott's Emulsion is the most effective foodmedicine for children who are of the rickety age,

The symptoms of this disease manifest themselves in the slow and-imperfect growth of bone and muscle. The teeth are delayed in appearing and cause unus trouble. The bones of the legs yield when walking and bow-legs are the result. spine is weak and tends to curvature. The bones of the head are soft and the whole frame-work of the body is affected. Even prolonged nursing will cause rickets as well as breathing impure air, unsanitary apartments and improper care generally. But in spite of these numerous causes it is a simple matter to avoid and cure rickets. Scott's Emulsion is the easiest, most effective remedy known. It makes new bone, new flesh and rich blood. It puts children on the right path to healthy growth and vigor. It is always a reliable help.

The policy of the Globe Clothiers is not to carry over any of the present season's stock for next season's selling. That's the why of this sale. Every garment is in perfect order and in the latest atrie. Deduct 20 per cent, from the price and that will be the price during this sale. This sale commences to-day-it's a money-saver. These days. Don't let Ready-made clothing for little money attract you; there just the kind that makes a man, after he has worn them, think if he wants good clothes he'll have to go to the tailor's the next-time and pay him his price for them.

These days. Don't let Ready-made clothing for little money attract you; there just the kind that makes a man, after be has worn them, think if he wants good clothes he'll have to go to the tailor's the next time and pay him his price for them.

There's a heap of difference in ready-to-woar-clothes-all depends on the store's standard for quality-you know what Quick & Robertson's is don't you? If you don't we want to as sure you there's none higher and there is no reason why you shouldn't get your clothes ready-made-you'll get better clothes for your money if you go to the right place for them-just as good and as correct styles and as perfect a fit as any tailor can give you.

The policy of the Globe Clothiers is not to carry over any of the present season's stock for next season's selling. That's the why of this sale. Every garment is in perfect order and in the latest style. Deduct 20 per cent, from the price and that will be the price during this sale. This sale commences to-day-it's a money-saver. These days. Don't let Ready-made clothing for little money attract you; there just the kind that makes a man, after he has worn them, think if he wants good clothes he'll have to go to the tailor's the next time and pay him his price for them.

There's a heap of difference in ready-to-wear clothes-all depends on the store's standard for quality-you know what Onick & Robertson's is den't you? If you don't we want to as sure you there's none higher and there is no reason why you shouldn't get your clothes ready-made-you'll get better clothes for your money if you go to the right place for them-just as good and as correct styles and as perfect a fit as any tailor can give you.

Our line of suits and overcoats offers as large and as varied an assortment as any man would want of fabrics that have always been up to last season, exclusive tailors fabrics and they are garments you'll not find elesewhere-why, do you ask I well, they are from W. That's the whole story in a nut-shell, and it's true, not a word of exaggeration in the statement—the values are correct, the goods are here for your seeing. Evidence is better than talk. The policy of the Globe Clothiers is not to carry over any of the present season's stock for next season's selling. That's the why of this sale. Every garment is in perfect order and in the latest style. Deduct 20 per cent, from the price and that will be the price during this sale. This sale commences to-day-it's a money-saver. If you ever expect to wear any more clothes you can't afford to stay away. Take your pick while the picking is good.

### FEELING POORLY-RUN DOWN.

When our appetite lags, when we want to be unnatur-ally quiet, when the body responds slowly and rather painfully to the demands upon it, we say we are "run down."

We're all of that and more. Our reserve force is at a low ebb; we're at the dividing line between health and the first ailment that happens along. The system is just in a condition then to take on sickness. It's altogether too common a condition, but it need never last long; it can often be avoided altogether.

Is it a simple matter? Very. Within the means of every-body? Yes. Easily understood? By everyone of ordin-ary intelligence. What should be done? What common sense advises for the most part. Rest? Yes; more than under ordinary conditionsmuch more, all that is possible without giving in to the attack.
Air? Plenty; get out into
the sunshine; walk; think of something cheerful; keep out of the night air; avoid damp-And as to food? Your good sense ought to direct you. Whatever will be likely to give real strength. Much depends on proper nourish-ment, some authorities say all.

And whatever your combine with it Scott's Emulsion; nothing will cause the tired body to respond more quickly. There is in Scott's Emulsion a peculiar element of nourishment that acts directly on exhausted forces, repairs waste and restores worn-out energy. Scott's Emulsion works quickly and Emulsion works quickly and without effort, yet one very soon feels the effects of the new force it brings. There is nothing better for the "run down" system.

These chains are not made a Chanc. We have been that boott's Emulsion will seek came that boott's Emulsion will be glid to need you among fore so that yet can logge for present.

Men's Suits 20 per cent. off.

Men's Overcoats 20 per cent off.

That's the whole story in a nut-shell, and it's true, not a word of exaggeration in the statement—the values are correct, the goods are here for your seeing. Evidence is better than talk. The policy of the Globe Clothiers is not to carry over any of the present season's stock for next season's selling. That's the why of this sale. Every garment is in perfect order and in the latest style. Deduct 20 per cent, from the price and that will be the price during this sale. This sale commences to-day-it's a money-saver. If you ever expect to wear any more clothes you can't afford to stay away. Take your pick while the picking is good.

## Where Are We At

We do not think the entire country has gone mad for cheap clothes. We believe there are still a large number of people who appreciate quality above prices so low that quality must suffer. It has taken the efforts of 20 years to establish our business, which-thanks to our appreciative trade-is of a high order, and we propose to fight it out on these lines of excellence to the end. We may make less money on our clothing, but our goods

Prices will suffer but not quality. Your wardrobe will need polishing up. We have the styles that will please you. Variety and modesty can both be suited here and at moderate prices.

### Men's Overcoats

That's the whole story in a nut-shell, and it's true, not 4 word of exaggeration in the statement—the values are correct, the goods are here for your seeing. Evidence is better than talk. The policy of the Globe Clothiers is not to carry over any of the present season's stock for next season's selling. That's the why of this sale. Every garment is in perfect order and in the latest style. Deduct 20 per cent, from the price and that will be 'the price during this sale. This sale commences to-day-it's a money-saver. If you ever expect to wear any more clothes you can't afford to stay away. Take your pick while the picking is good.

## Where Are We At

We do not think the entire country has gone mad for cheap clothes. We believe there are still a large number of people who appreciate quality above prices so low that quality must suffer. It has taken the efforts of 20 years to establish our business, which thanks to our appreciative trade—is of a high order, and we propose to fight it out on these lines of excellence to the end. We may make less money on our clothing, but our goods

will need polishing up. We have the styles that will please you. Variety and modesty can both be suited here and at moderate prices.

### SCROFUL.A

Bad air, poor food, insufficient clothing, dark, damp or crowded apairments are frequent causes of scrofula. Perhaps this explains why the ailment is so common in the poorer sections of large cities. Scrofula, however, does not recognize city limits. It prevails under all conditions of location, soil and climate. Moreover, it is but a step to consumption, and herein lies the great danger. It is just as well to avoid the step.

It is rather strange that Scott's Emulsion should contain just the very things that nature requires in curing scrofula. The pure Norwegian cod liver oil helps to build up the whole body and enables one to acquire new, healthy, solid flesh. The hypophosites of lime and soda act as a tonic on the blood and tissues, replacing the waste and giving strength and new structure where it is most needed. Because of its mild action, pleasing taste and nutritive properties, Scott's Emulsion is vastly superior to plain cod liver oil. There is nothing that will do more good in the case of scrofula

than Scott's Emulsion. SCOTT & BOWNE, 55 Front St., W., Teron

# We're Pushing Business

Want to make a large January turnover-on very small profit. Perhaps no profit, but we wish to reduce our stock prior to stock taking that we can the better serve our patrons for the remainder of the year, and then again for next year. That's why we are running this mammoth seven day sale of everything in our store at 25 per cent reduction, one-quarter off-regular prices.

.The only restrictions we make are that sales must total ooc to carry the discount and we except from the sale Waterman Pens, School Supplies and Blank Books, But see what we include, everything else in this store-Wall-Papers-100,000 rolls, Bibles, Prayer Books, Hymn Books. Picture Framing-Pictures,

Alburs, Purses, Chins, Fancy Goods, Brass Goods, Gold Metal Pencils and Pens, Stationery, and a hundred other things that cannot here be enumerated.

# A CHILD'S LIFE FOOD

Physicians speak of fat food as "life food" and say that all children ought to have it in abundance. They clinch the argument easily by calling attention to how naturally the well-fed infant thrives upon fat food-the fat which is in milk.

Physicians say, more impressively still, that weak, thin, nervous children MUST have fat food, and recommend Scott's Emulsion. It promptly returns sickly, backward children to rosy health. It is the life of flesh-creating food and keeps the scale of childhealth evenly balanced.

Being prepared for easy di-gestion Scott's Emulsion is readily accepted by the stornach and quickly passed into the blood. Once absorbed, the system soon feels the influence of the new force, There commences at once the repairing of wasted tissues, the enrichment of the blood and the strengthening of the whole system. Any child who needs more and better nourishment than it seems to be getting from its ordinary food will be greatly benefitted if given Scott's Emulsion.

# Take No Chances

These days. Don't let Ready-made clothing for little money attract you; there just the kind that makes a man, after he has worn them, think if he wants good clothes he'll have to go to the tailor's the next time and pay him his price for them.

There's a heap of difference in ready-to-wear clothes—all depends on the store's standard for quality-you know what Quick & Robertson's is don't you? If you don't we want to as sure you there's none higher and there is no reason why you shouldn't get your clothes ready-made-you'll get better clothes for your money if you go to the right place for them-just as good and as correct styles and as perfect a fit as any tailor can give you.

Our line of suits and overcoats offers as large and as varied an assortment as any man would want of fabrics that have always been up to last season, exclusive tailors fabrics and they are garments you'll not find elesewhere-why, do you ask? well. they are from W. R. Johnston & Co., who sell only Quick c Robertron in Belleville.

It Makes Strong Men

Who's the champion of this game in Canada?

A Scotch-Canadian to be sure.

Where's the Scotch-Canadian who has not been reared on Scotch-C.nadian Oatmeal porridge?

Where's the one who ever grew to stalwart manhood on cold fads?

Thousands of Scotch and other Canadians have eaten Tillson's Pan-Dried Oats all their lives.

Thousands of Canadian strong men have been made strong on Tillson's good, plain wholesome Oatmeal porridge-Pan-Dried.

No hulls, no specks, no dirt, no dust-nothing but the estable part of the oat.

For Fifty Years the Home of Tillson's Oats, Pan-Dried.

> Ready to Cook--Served Hot.

Packages only. All Grocers.

These mills are the home of Tillson's Oats, Pan-dried

-result of two generations of Tillson effortgrowth of half a century-Canadian all the time.

For fifty years, within a radius of fifty miles, the entire product of these mins was consumed.

But seven months' time and a lot of money spent in 1902 transformed these mills from merely local to national significance.

Now, if Tillsons had not been absolutely certain that Tillson's Oats, Pan-dried, were the best oats in Canada

-if they had not believed that Canadians living a — n may had not penever that canadians high a thousand miles from their mills would appreciate a good breakfast as well as people within fifty miles of them had for fifty years

-would they have spent a fortune on big mills to make porridge for all Canada?

But Tillsons know that Tillson's Oats, Pandried, is the best, not only in Canada, but in the whole wide world.

-They know their Pan-dried process produces oatmeal unmatched in purity and flavor by any other process in the world.

They know that no other mill in the world can use their Pan-dried process, because it is their's absolutely and solely.

Tillsons know that Tillson's Cats, Pandried, is the most delicious, purest, cleanest porridge made by any process in any country,

-that it cooks up smoothly,

that it has no "smoke" flavor, that it is not "mushy" or "lumpy," that it is a natural wholesome food.

Tillsons knew that Canadian common-sense. would discard the silly cold fads for a food that is

served hot-not cold. ..

Moreover Tillsons, believed that Canadian national pride would decide for a breakfast made in Canada for fifty years,

that Canadians who could produce not only a breakfast, but three meals a day tor the whole British Empire, would soon dismiss the alien cold fads for a home-grown, home-made, rational breakfast, whole-some and common-sense—hot not cold, Canadian not foreign-a food, not a fad.

These days. Don't let Ready-made clothing for little money attract you; there just the kind that makes a man, after he has worn them, think if he wants good clothes he'll have to go to the tailor's the next time and pay him his price for them.

There's a heap of difference in ready-to-wear clothes-all depends on the store's standard for quality-you know what Quick & Robertson's is den't you? If you don't we want to as sure you there's none higher and there is no reason why you shouldn't get your clothes ready-made-you'll get better clothes for your money if you go to the right place for them-just as good and as correct styles and as perfect a fit as any tailor can give you.

Our line of suits and overcoats offers as large and as varied an assortment as any man would want of fabrics that have always been up to last season, exclusive tailors fabrics and they sre garments you'll not find elesewhere-why, do you ask? well, they are from W. ### The Better Way With a Cold.

When a slight cold fastens on you in early winter you are apt to regard it merely as an annovance-not a thing worth serious consideration. You usually feel like taking something syrupy, with perhaps a touch of spirits in it, to warm you up and stop the cough. But there is a better way.

The cough, the red eyes and uncomfortable head are not the cold. They are only the symptoms. They are like the leaves of a weed sticking above ground. The surest way to get rid of them and prevent their sprouting again is to pull up the root.

You sometimes say, "This cold is all over me," Every cold you have is, to a certain degree, all over you. It is evidence of a slight general weakness. It usually steals in on you at a time when the body is a little below its normal tone and the surest way to get rid of it is to bring the whole system up to its right level.

You may need some medicine. Your doctor will know. But a mere expectorant will do nothing toward restoring the body to a healthy standard. At the best its action is merely local and gives only temporary relief. Scott's Emulsion does this and more.

A small quantity of the emulsion taken regularly for a few days will supply the lack of proper nourishment in ordinary food. It is rich in the substances of which healthy blood is composed, and makes itself quickly felt in the throat and bronchial tubes. It starts the flow of mucous and relieves an obstinate cough sooner than any expectorant will do.

The emulsion does more than rid you of a cough. It rids you of the cold which is the root of the cough. Still more; it helps to protect you against a return of the trouble

and against its going deeper. Scott's Emulsion is aptly termed a food-medicine. contains the nourishing properties of the whole cod liver oil, emulsified and combined with the medicinal qualities of hypophosphites, of lime and soda. It is probably more widely recommended by physicians for use in coughs and colds than any other preparation.

So-called wines, cordials and extracts of cod liver oil do not contain the value of the whole oil and are worthless in cases where a pure reliable cod liver oil preparation is needed. Scott's Emulsion has been the standard for over twenty-five years.

We will send a sample free to anyone on request.

The policy of the Globe Clothiers is not to carry over any of the present season's stock for next season's selling. That's the why of this sale. Every garment is in perfect order and in the latest style. Deduct 20 per cent, from the price and that will be the price during this sale. This sale commences to-day-it's a money-saver. Men's and Boys' Clothing

The constant demand we have had for a high grade of Men's and Boys' Ready-to-Wear Clothing has induced us to put in a first-class stock of that kind, which we believe will be appreciated by our many customers of the Bay of Quinte District.

Carpenters, Masons, Plasterers, Tinsmiths, Plumbers and Decorators are now busily engaged on a large addition to our present Men's Department, which will be finished by 1st March, and when complete will be one of the finest departments of its kind in Canada. With this addition our store will be very large, occupying a whole block 160 feet deep by 66 feet wide, three storeys high and a basement entirely filled with goods.

## One Price System

Our Clothing department will be run on the same principles that have made auch a success of our other lines: STRICTLY ONE PRICE; EVERTHING MARKED IN PLAIN FIGURES; NO GRATUTHINE; MONEY RETURNED IF YOU ARE NOT SATISFIED. We think it needful to speak of the One Price System, because it is a common practice of many storckeepers, to ask more for goods than is right, for the purpose of making an abstracent in price it pressed to do so, or of offering to give something in as an inducement to buy. We have no besistation in saying that such courses are miletading.

In stores when a second price is made, more than the proper value is invariably asked for the goods. We have often known of large reductions being made from the price first saked for an article, the buyer being thus led to think that he was getting it so much less than the market value, whereas he has afterwards found that after all he has paid more than its worth, or more than the same goods can be had for elsowhere.

We have placed orders for large quantities of Men's and Boys thoroughly reliable clothing, which is now being made to our special orders, and which will arrive early in March, when we will make forther amountements

#### ONE CHILD IN FORTY

All children need the elements of fat in their food because it is of first importance in proper nourishment. Doctors say one child in forty is properly fed - the other thirty-nine don't get a right amount of fat in their food at the right time.

If more children were given Scott's Emulsion it wouldn't take long before more than one in forty was properly fed. There is in Scott's Emulsion something that seems to take hold of children who do not get enough and proper nourfood.

First there is that important element of fat; this is contained in the cod liver oil in the very best and most desirable form. Then there are the hypophosphites of lime and soda which tone the blood and strengthen and nourish the bones. The perfect combination of these food principles in Scott's Emulsion makes this preparation of great value to all children.

Men's and Boys' Clothing

The constant demand we have had for a high grade of Men's and Boys' Ready-to-Wear Clothing has induced us to put in a first class stock of that kind, which we believe will be appreciated by our many customers of the Bay of Quinte District.

Carpenters, Masons, Plasterers, Tinsmiths, Plumbers and Decorators are now busily engaged on a large addition to our present Men's Department, which will be finished by lat March, and when complete will be one of the firest departments of its kind in Canada. With this addition our store will be very large, occupying a whole block 160 feet deep by 66 feet wide, three storeys high and a basement entirely filled with goods.

## One Price System

Our Clothing department will be run on the same, principles that have made such a success of our other lines: STRICTLY ONE PRICE; EVERFYHING MARKED IN PLAIN FIGURES; NO GRATUTHES; MONEY RETURNED IF YOU ARE NOT SATISFIED. We think it needful to speak of the One Price System, because it is a common practice of one may storckeeper to ask more for goods than is right, for the purpose of making as abstenced in price if presed to do so, or of offering to give something in as an inducement to buy. We play one obesidation in saying that such courses are mileading.

In stores when a second price is male, more than the proper value is invariably asked for the goods. We have often known of large reductions being made from the price first saked for an article, the buyer being thus led to think that he was getting it to much less than the market value, whereas he has afterwards found that after all he has paid more than its qurth, or more than the same goods can be had for glewhere.

We have placed orders for large quantities of Men's and Boys' thoroughly reliable clothing, which is now being made to our special orders, and which will arrive early in March, when we will make further announcements
